STEADY RETURNS

In Fast FX, ROI is structured to provide steady and predictable income through a simple and transparent plan. With a 2% weekly ROI, your capital generates consistent earnings every week — helping you build a stable income stream without the risks of daily fluctuations.

Weekly ROI: 2%

You will earn a fixed return of 2% on your investment every week, providing you with steady and consistent income.

ROI Capping: 2X

Your earnings will continue until you have earned double (2 times) your original investment amount.

Example:

If you invest \$500, you'll earn a 2% ROI every week:
 $2\% \text{ of } \$500 = \10

Total return: $\$500 \times 2 = \$1,000$

At a steady rate of 2% per week, it will take around 100 weeks to complete the full ROI cycle.

“Earn a steady 2% weekly ROI and double your investment within 100 weeks — simple, steady, sustainable.”
